63 - 75 - 90

Air distribution system for  
semi-rigid ducts

up to  
6x faster  
to install

AirSmart

# CLICKFIX

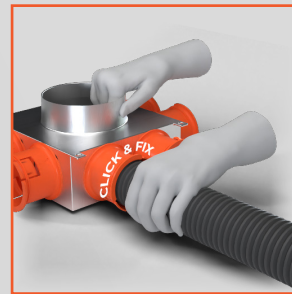

UNIQUE FEATURES

## Incredibly fast installation

The patented CLICKFIX connector was developed for fast, flexible and efficient work on site. This connector requires no additional clips or fasteners, just CLICK and FIX! Up to 6 times faster to install than alternative systems.

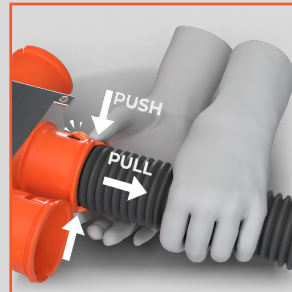

### Connecting the duct

Insert the duct into the connector and press it in to the edge. No brute force or tools required; the CLICKFIX system is designed for ultimate ease of installation.

### Disconnecting the duct

Made a mistake? Disconnect the duct effortlessly. Simply press both buttons on the connector and pull the duct out.

## Compact and complete design

### 8 items, a solution for every situation

CLICKFIX consists of only 8 items per diameter, ensuring efficient and orderly stocking. With this limited set, you can tackle any installation effortlessly. The system is fully pre-assembled, making on-site installation quick and easy, with no extra handling or parts.

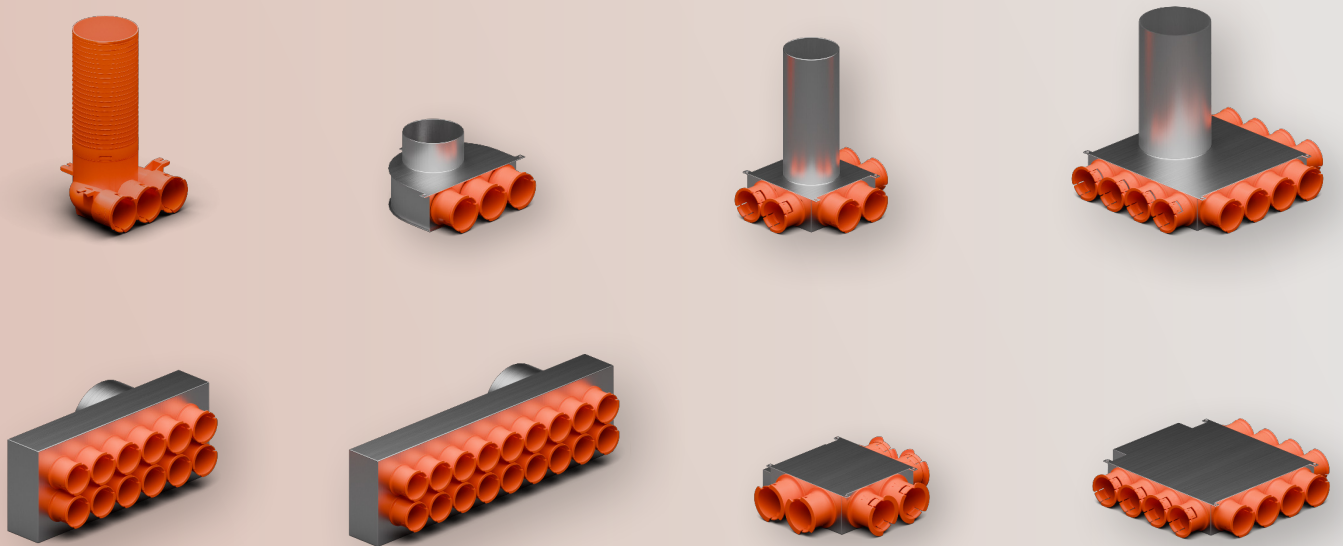

### All-in product, no hidden costs

Each collector comes with all necessary accessories, such as plugs and dust covers. This ensures a transparent price and a smooth, hassle-free installation.
